General Comment

So by blocking progress in the gas drilling in New York State you are allowing the neighboring states to receive ALL the revenue possibilities and we in New York state get left out ! The gas is going to be pulled out from under New York state and we are NOT going to get any benefits! The water will be affected as it already has been in the past by progress and we do need to protect our water however, why is nEW yORK BEING LEFT OUT OF THE MONEY BENEFIT! The neighboring states are NOT AS CLEAN AS NEW YORK STATE....why are we being punished for others states short comings of inadequate practices.

LET US DRILL AND GET THE REVENUE WE ARE ENTITLED TO!

DO NOT PUT THE BURDEN ONTO FARMING! They have been suppling our FOOD ! Why are you trying to make it even harder to feed us all! More restrictions will put more farmers out of business! That will increase our dependance on other countries to help this country !

Let us drill ! Do not restrict the farming industry ! Make the other states come up to the level New York State is already !

Thank you for your time.

Concerned New York State Tax Payer from Nichols, New York.
